The NSSN was initiated by the RMT transport union in 2006 and now has national support from 8 unions, and works alongside activists in all others. We resolved to rebuild the strength of our working-class movement from the bottom up by creating local, regional and national networks to put elected reps, shop stewards and activists from different unions and workplaces in contact with each other.

Organising mutual solidarity when trade unions are in dispute is at the heart of our work. We share information to develop ways of successfully resisting attacks on our union rights, jobs, pay, conditions and pensions. We aim to build a movement that can help sweep the anti-union laws off the books and make them inoperable in the meantime.

Bringing new blood into our movement is vital so the NSSN will encourage younger workers, agency and migrant workers to join their unions, organise in their workplaces and become reps themselves.
